French	Intermediate

Main Technologies

Python JavaScript HTML

CSS ReactJS NodeJS

⊕ Objective

Looking for opportunities to grow as a Full-Stack Developer. Python and JavaScript are preferred, but I am open to learning new technologies.

👤 Profile

Full-Stack Developer with a focus on React Js for front-end, Node Js for backend, React Native for mobile, MongoDB for databases, and Python for process automation and business intelligence. Experience in the industry of Consumer Goods, in Digital Marketing (Ads, Content, and Social), business management, and investment analysis.
